

MONO ENDURA

STRONG & ESSENTIAL

A small and compact injector with a **non-expandable workstation** fully controllable from a touch screen. It is able to produce around **2000 small and medium sized pieces** per day with the help of **only one operator**.

The MONO ENDURA injector combines an aggressive design with an essential line, which characterizes and enhances its **strength and sturdiness**, resulting in a machine with a slender line with one workstation.

The electronics reduced to a minimum, an **interface with industrial touch screen**, easy maintenance and powder-coated aluminum and stainless-steel surfaces make this injector particularly **reliable and suitable even for the most difficult environments**.

It is equipped with a transparent melting tank with a constant vacuum system, a vacuum switch to check the vacuum in the mold, an RFID reader, an 8-cmc injection syringe with final temperature regulation and a self-centering clamp with 120x90mm plates.

TECHNICAL SPECIFICATIONS

Moulds
Min 50x30x12 mm
Max 120x90x47 mm

Machine
38 kg
60x36x53 cm

Box
67 kg
83x50x70 cm

COMPATIBLE ACCESSORIES

Big Clamps
135x135 cm
140x180 cm
160x180 cm

Plates
120x120 cm
120x130 cm

Syringe 32 cmc
