

## MONO INTUITIVE SIMPLE & COMPACT

A small and compact injector with a **non-expandable workstation**. Fully controllable from a tablet and able to produce around **2000 small and medium sized pieces** per day with the help of **only one operator**.

The MONO INTUITIVE injector allows to create light and very thin objects, maintaining their weight over time.

An Android **tablet** is the control unit with **specially developed apps** that allow to **save recipes with photos and manage and control production orders**. Its interconnectability to the outside world makes it compatible for **Industry 4.0**.

It is equipped with a transparent melting tank with a constant vacuum system, digital sensors to control the pressures that always allow the tablet to display the graph of the vacuum on the molds during injection, an RFID reader, an 8 cmc injection syringe with final temperature regulation and self-centering clamps with 120x90mm plates

### TECHNICAL SPECIFICATIONS

Moulds  
Min 50x30x12 mm  
Max 120x90x47 mm

Machine  
40 kg  
60x38x53 cm

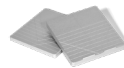

Box  
69 kg  
83x50x70 cm

### COMPATIBLE ACCESSORIES

Big Clamps  
135x135 cm  
140x180 cm  
160x180 cm

Plates  
120x120 cm  
120x130 cm

Syringe 32 cmc
