

BI VISION COMPACT COMPACT&SMART

Small and compact injector large only 68 cm, it is built with **two injection stations for just one operator**. Totally controllable from the 10-inch industrial PC place, it produces **4,000 pieces per day** of small and medium size **like two single-station machines**.

TECHNICAL SPECIFICATIONS

Moulds
Min 50x30x12 mm
Max 130x120x47 mm

Machine
54 kg
68x56x53 cm

Box
80 kg
83x70x70 cm

Bi Vision Compact combines the **unique technologies** of RiaceWax injectors together with the distinctive traits of the **Vision line**.

With a **10.1-inch Android industrial PC** as control unit and **Apps specifically developed**, it will **save injection recipes with photos** as well as **manage and control production orders**. The injector is compatible with **industry 4.0** as it can be connected remotely.

The innovative **"mould life-tracking"** allows you to keep track of the number of injections made with each mould equipped with an RFID chip, monitoring its life cycle to ensure great performance.

It is equipped with a transparent melting tank with a constant vacuum system, digital sensors to monitor pressures and performance while injecting with the graphic shown on the IPC, an RFID reader, two injection syringes of 16 CMC with temperature adjustment, and transverse self-centering clamp with 130x120mm plates.

Configurable with an additional 10.1-inch PC, additional vacuum pump and larger injection syringe.

COMPATIBLE ACCESSORIES

Syringe 32 cmc

2nd 10" PC

Additional pump
