

BI MAXI INTUITIVE PERFORMANCE & VERSATILITY

Fully controllable from a tablet, it is the most versatile injector of the Intuitive line as it allows to inject **molds of all sizes** thanks to the **two independent workstations, a maxi and a standard one**.

The BI MAXI INTUITIVE injector is characterized by two independent, non-expandable workstations that allow to create **both light and very thin objects as well as large-sized pieces**, maintaining their weight over time.

Two Android tablets are the control unit, with specially developed apps that allow to save recipes with photos and manage and control production orders. Its interconnect-ability to the outside world makes it compatible for **Industry 4.0**.

It is equipped with a transparent melting tank with a constant vacuum system, digital sensors to control the pressures that always allow to check the graphs of the vacuum trend on the molds during injection from the tablets and RFID readers.

In the **standard workstation**, there is an 8-cmc injection syringe with final temperature regulation and self-centering clamp with 250x155mm plates while in the **maxi workstation** there is a 120-cmc injection syringe with final temperature adjustment and a self-centering clamp with 250x155mm plates.

TECHNICAL SPECIFICATIONS

Moulds
Min 50x30x12 mm
Max 250x155x80 mm

Machine
65 kg
110x38x53 cm

Box
97 kg
123x50x70 cm

COMPATIBLE ACCESSORIES

Maxi Clamps **
185x155 cm
250x155 cm
330x180 cm

Big Clamps *
135x135 cm
140x180 cm
160x180 cm

Plates *
120x120 cm
120x130 cm

Syringe 32 cmc *

Double steel tank

Double pump

* Optional workstation standard ** Optional workstation Maxi
